

Latronix Technologies

Simple Solutions For Complex IT

About Us

Latronix Technologies India Pvt. Ltd. (LTIPL) – is a one Stop Solutions for all IT needs.

LTIPL believes in going beyond the role of a mere solution provider to its clientele. We believe that the more access people have to technology, the better. We provide Solutions which breaks down barriers between our Customer and Technology and hence making it User-friendly. We use technology as a means to empower customers by providing them with solutions that enhance their productivity.

LTIPL provides hardware-based solutions for Passive Networking, Hardware Servers, SAN & NAS Storages, Data Centre Room, Wireless, CCTV, Access Control Security, Hardware Firewall, DLP, Antivirus, Desktop, Laptop, All In One PC, Printers, Cloud Server, Microsoft & Google Email Solutions, Data Backup Solutions and many more. LTIPL serves not only small and medium enterprise but also large corporate customer with dispersed nationwide segments.

LTIPL provides support at both pre-sales and post-sales levels through our certified engineers. You can be assured of quality services. LTIPL is a team of hard-core professionals who are on the lookout for challenges with experience in working for various large corporates and multinational organizations.

At LTIPL, we deliver seamless, secure, context-aware experiences for a connected world. We have given our customers such confidence in our services that we have been able to continuously serve the IT industry successfully. We meet the client challenges by delivering cost effective solution while maintaining a roadmap that can evolve to fit their future needs.

We are working in two different segments:

- IT Infrastructure Solutions for New Sites- Small & Large Offices/Pharmaceuticals/Plants/Hospitals/Hotels/Institutions/University.
- Network and Security Solutions for SMB to Enterprises.

Solutions and Services

1. Infrastructure

A traditional IT infrastructure is made up of the usual hardware & software components:

- Active & Passive Networking
- Secured Wireless Networks
- Branch and Remote Connectivity
- Datacenter Design and Build
- Server and Client Virtualization
- SAN & NAS Storage
- End User Devices: Desktop Computer, Laptop, Workstation, All In one PC, Printers.
- Enterprise application software solutions
- Video Conferencing Solutions
- Smart Racks.
- uninterruptible power supply (UPS)

2. Cyber Security

Cyber security is the application of technologies, processes, & controls to protect systems, networks, programs, devices & data from cyber attacks. It aims to reduce the risk of cyber attacks & protect against the unauthorized exploitation of systems, networks, & technologies.

- Vulnerability Assessment & Penetration Testing (VAPT)
- Cloud Security
- Email Security
- Network Security
- Endpoint Security
- Data Security

3. Cloud

We work hard to recruit some of the finest technical teams in our industry – who solve organizational challenges by understanding what technology is capable of, & where trends are leading us. With the benefit of optimal solutions, we focus on the user – providing world class support & in turn maximizing adoption & optimizing your technology investment. This is what drives us. Helping your organization & your people to succeed.

What separates us from the rest, is our ability to adapt to our client's specific needs.

- Virtual Private Server on Cloud
- Data Backup on Cloud
- Email Solutions on Microsoft & Google Workspace

4. Mobility

Enterprise Mobility service is a solution for organizations to enable their employees to use mobile devices securely. Enterprise mobility management is the process of securing corporate data on mobile devices of the employees. It contains a set of services & technologies for mobile management.

It includes 4 major components i.e.

Mobile Device Management, Mobile Content Management, Mobile Application Management, & Mobile Identity Management.

- Apple Mac, iPad, iPhone
- Android Tablet & Smartphones

Services

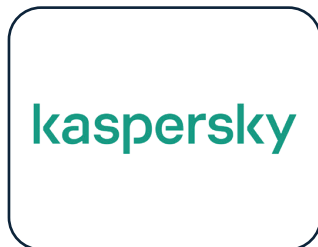

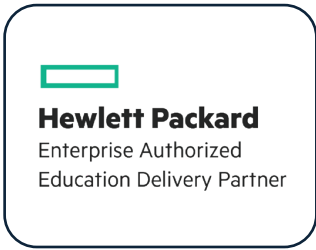

Annual Maintenance Contract Services to Manage Your IT Ecosystem at Peace of Mind

Businesses and organizations are dependent on information-technology solutions more than ever. As the new digital transformation wave forces small and big enterprises alike to embrace technology, IT maintenance has become crucial for business sustainability. And that's where the annual maintenance contract (AMC) comes into the picture. With the right AMC services, your IT management becomes completely hassle-free. Businesses & organizations are dependent on information-technology solutions more than ever. As the new digital transformation wave forces small and big enterprises alike to embrace technology, IT maintenance has become crucial for business sustainability. And that's where the annual maintenance contract (AMC) comes into the picture. With the right AMC services, your IT management becomes completely hassle-free
